

“CoTech proved to me it's possible to work in tech without becoming cynical.”

Co-owning the business also means deciding on a sustainable direction that benefits all workers. It brings a great joy and satisfaction to my daily life, even when facing difficulties or uncertainty. Here CoTech also comes handy as we support each other on multiple levels. United we stand!

“CoTech is only as good as the humans who are part of it. You get as much as you put in.”

I have found so many similarly minded people who are just trying their best to get good things done. We help each other out, suggest ideas and share knowledge and skills. This has saved me time in my job, made Outlandish better and gives me a feeling of being a real part of something that is making a difference. The parties are awesome!

“CoTech has been a game-changer for us as a business and a cooperative.”

We've collaborated on projects we otherwise would not have won; learnt new skills and processes; and, most importantly, met loads of amazing people. Before, we felt quite isolated in doing what we were doing, now we feel connected to a growing movement of people genuinely trying to make the world a better place.
